HAIM KATZ
Minister of Tourism

Shalom,

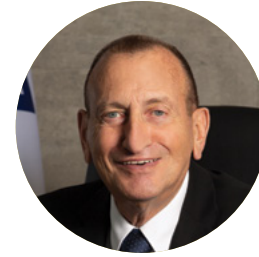

Incoming tourism to Israel is about to break new records. The Ministry under my leadership is aiming to go the extra mile in the services we offer to our guests from around the world. We are working to promote fast and effective infrastructure development, to add more hotel rooms and increase the tourism supply. At the same time, we are perfecting the marketing systems and the tourist experience, and increasing aviation accessibility by opening additional direct flights to Israel.

There are places that just must be seen – and primarily experienced – in order to understand what everyone is talking about. Israel is one such place - rich in travel experiences within just a short distance from one another, a variety of landscapes, holy sites for all religions, warm-hearted people and a leading culinary scene which has earned itself an international reputation.

Tel Aviv, a UNESCO World Heritage Site, is a flagship city offering a never-ending experience of cultural diversity, history alongside innovation, a vibrant nightlife, unique flavors and a rhythm of its own. All of these attract to Israel millions of tourists a year and generate a growing interest among the MICE tourism sector. Moreover, our top-class conference facilities make Israel the perfect place for hosting international conferences.

I therefore invite you to hold your next conference in Israel and enjoy everything we have to offer!

SIX REASONS FOR CHOOSING TEL AVIV:

1. Innovative start-up city

Tel Aviv boasts the highest density of start-ups per capita in the world. The city's thriving start-up ecosystem is fed by its various venture capital firms, seed funds, accelerators, major international hi-tech firms, and leading research and academic institutions.

2. World-class hotels and venues

3. Well connected: frequent & direct flights

Tel Aviv is well connected to all major hubs in the world. As a host for conferences, it is ideally positioned; most flights to and from Europe range from a mere three to five hours in duration, with frequent flights offered year round.

4. White sandy beaches & sunny climate

With a 14-kilometer world-renowned beach strip and 320 days of sunshine a year, Tel Aviv is an ideal year-round destination. Whether you want to enjoy a morning run at the Tel Aviv promenade, practice some beach volleyball, go surfing, or simply soak up some sun, the city's sunny climate and beautiful beaches await. Tel Aviv beaches are all awarded a Blue Flag and guarantee access to the sea for people with disabilities.

5. Vibrant culinary & nightlife scene

Are you looking to network after hours? Whether you want a fine dining experience or looking to spontaneously grab a beer, Tel Aviv is the place to be.

6. UNESCO world heritage site

Tel Aviv's White City features the largest collection of international style buildings in the world, making it essentially an open-air museum. In fact, in 2003, UNESCO inscribed the "White City" of Tel Aviv on the World Heritage List, citing it as "an outstanding example of new town planning and architecture in the early 20th century".

START-UP NATION

The pioneering spirit of Tel Aviv's 66 founding families has rapidly transformed 14 kilometers of the once-barren Mediterranean coastline of 1909 into a leading hub of high-tech, commerce, culture, entertainment and multicultural cuisine. The story of Tel Aviv's innovation ecosystem is not much different. With a build-from-scratch culture, a "can do" attitude and a risk taking environment, Tel Aviv's all-encompassing entrepreneurial spirit and progress in building innovation hubs across the city, have led to its extreme growth in the technological and start-up sectors - attracting international investments and buyouts.

FUN FACT:
With one start-up for every 154 residents, Tel Aviv is the city with the highest concentration of start-ups per capita in the world.

Known as the Start-up City, Tel Aviv has churned out more than its fair share of pioneering technological inventions and mobile apps, which have prompted mass interest from international angel donors and the global tech world at large. From software and security to medical and agricultural technology, multinational companies have been operating R&D centers in Tel Aviv: Amazon, Facebook, Google, CA Software, and Daimler, to name a few. Additionally, Tel Aviv consistently hosts various annual conferences, meetups, and events dedicated to technological innovations, including the DLD Tel Aviv Conference, Forbes '30 Under 30' and CyberTech. Within such a fertile breeding ground, Israel has seen a revolutionary trend in successful start-ups, acquisitions and mergers.

It's no wonder Tel Aviv was ranked one of the world's most innovative cities by 'The Wall Street Journal'.

TEL AVIV UNIVERSITY (TAU)

One of the reasons for the success of Tel Aviv as a start-up city, is the presence of highly ranked academic institutions and research centers, which help build the local talent pool.

The university is known for its dynamic setting, world-renowned professors, lectures, and intellectual advancements in research and development. In 2003, UNESCO inscribed the 'White City' of Tel Aviv on the World Heritage List, citing it as "an outstanding example of new town planning and architecture in the early 20th century". Information about the accessibility of the city's tourist attractions (including beaches) can be found at the "See & Do"

section of the city's tourism website, and information about the accessibility of the city's modes of transportation can be found at the "Move" section of the website.

For Information about accessibility of the venues mentioned in this guide, please contact the venue's contact person.

* Additional information on accessibility can be found at Israel's Accessibility website or Wheel Map's website.

Jaffa Theater Theater

Within Old Jaffa, in a multi-arched historic 500-year-old building overlooking the sea, for over 20 years the Jaffa Arab Hebrew Theater has been a model of shared lives and bi-lingual, bi-culture intergroup artistic creativity. The Jaffa Theater is a stage for theater, the arts and cross-cultural activity promoting Jewish, Arab and Middle Eastern understanding and mutual respect as a path to reconciliation and peace. Igal Ezraty, General Manager, Gaby Aldor, Co-Artistic Director and Rauda Sliman, Arabic Stage Director have made the Jaffa Theater a home for Arab and Jewish artists and creators from the center and the periphery of the country who together grapple with questions of identity, society and place. The Theater offers a repertoire of plays in Hebrew and Arabic with translations and has presented more than 80 productions, The Children's Festival, The Women's Festival and from this year Theatronetto.

Creative accessories and fine touches accompany the unique breakfast menu. Our wildest ideas are revealed thru a black & white photo booth and a make-up corner designed with the 'behind the scenes' spirit. Fabric Hotel

City Center, Tel Aviv

Fabric is located in a building that was formerly used as a sewing factory and has now been transformed into the 43-room hotel. Breaking the barrier between old and new are the Belgian-styled transparent glass and black metal front doors. This eclecticism is expressed not only in the interior, but also in a hidden courtyard surrounded by greenery and concrete walls, and on the roof of the hotel, with a hydroponic garden and the mesmerizing view of the Televisual landscape. The interior design, credited to Oren Bronstein, offers a rugged, industrial appearance on one hand, but also creates a warm ambiance with a vintage touch on the other. On the ground floor lies Bushwick, the "all day bar - from coffee till cocktail". Teaming up for the first time, Atlas Hotels and the Imperial Cocktail Bar group have transported Brooklyn's influences to Tel Aviv - from the artisanal café vibe in the morning to a lively cocktail bar at night.
